

## **THE BIG BATHROOM SHOP GUARANTEE**

Big Bathroom Shop products are manufactured to high standards and undergo quality checks and testing throughout their manufacturing process.

To prolong the life of your Big Bathroom Shop product and to ensure its optimum performance, your product should be assembled, installed, cleaned and maintained according to the instructions and guidelines provided for your product. Installations should also conform to any applicable national or local authority regulations or relevant British Standards. A failure to do this will invalidate this guarantee.

### **Our Guarantee**

Big Bathroom Shop offers a free of charge extended guarantee on many of its products.

Big Bathroom Shop will offer to repair or replace your product for the duration of the specified guarantee period, starting after the date of delivery, if it is determined that the product is faulty or defective because of the materials used or the processes undertaken during its manufacturing. Please note that this guarantee does not cover serviceable parts, such as cartridges for shower valves and taps; wear and tear, or deliberate or accidental damage.

### **Other information**

If a product is replaced or repaired under this guarantee, the remaining period on the original guaranteed product will be transferred to the new replacement product.

This guarantee provides for the supply of a like-for-like replacement product or the repair of the defective product only; any costs associated with removal and installation of the product are not covered.

In some circumstances, such as where a replacement product is no longer available, Big Bathroom Shop may offer a refund proportionate to the age or condition of the product and the original price paid.
